

<i>MTARC1</i>	0.045	1.00	Neither · expression-map miss; protein-QTL recovers it
<i>HSD17B13</i>	0.057	0.79	Neither · expression-map miss; protein-QTL borderline (<0.80)
<i>ERLIN1</i>	0.52	0.98	Neither (ABF-suggestive) · protein-QTL confirms the genetic signal
<i>MTTP</i>	0.84	0.84	Neither (ABF-suggestive) · protein-QTL confirms the genetic signal
<i>GCKR</i>	1.00	1.00	Genetic-only · colocalizes on expression; eQTL/pQTL effect signs oppose
<i>LGALS1</i>	0.08	0.87	Disease-state-only · reactive in both maps (their analysis agrees)
	Expression-QTL (this study)	Protein-QTL (Gobeil 2026)
